Coming somewhat mutinous, and it is probable that the pressure they will bring to bear upon the directors may compel them to accept Mr Lever's munificent offer after all. We are now positively assured that if the Great Eastern sails from Galway her destination will be New York, or as near to our city as Neptune will permit her to come. How near that is we have already demonstrated in these columns. By taking the Sound channel she can ride easily down to the dock which the Corporation are now building at the foot of 106th street.

The 3d of this month was the day fixed for her trial trip, and we shall therefore learn, probably, by the second next steamer from Europe, the intelligence of her success.

NEWS FROM WASHINGTON.

Our Relations with New Granada and the South Pacific Republics-Douglas Squatter Sovereignty Essay Demolish-

OUR SPECIAL WASHINGTON DESPATCH.
W. SUNGION. Sept. 11, Washington, Sept. 11, 1859.
The concentration of the large United States fleet in New Granadian ports was not premeditated by the administra tion, nor has it reference to our political relations with tha intry, as alleged by the Isthmus papers and corres

pinwall to receive orders and supplies. It is understood that the administration will take no further action in refe rence to the pending claims against New Granada untithe fate of the Cass-Herran convention, now in the hands

of the Executive of that nation, is definitely known. Gen. Herran is expected to leave the United States for Bogota in November next.

The government has received intelligence from our Minis

ters in France and England that Senor Juan de Francisco Martin, the Minister from New Granada, has been mak ing another effort to get those two governments to gu Fantee the " nationality" of the Isthmus of Panama. As surances of the strongest character have, however, been given by both the Cabinets of London and Paris that the will negotiate no such guarantee without the consent of the Cabinet at Washington; and the policy of our govern ment as respects American affairs is too well known to Suppose it will join any European Power in treaties of this

Mr. Trevett, United States Consul at Valnaraiso, who exequatur was revoked sometime since by the govern-ment of Chile, has been transferred to Callao, Peru; and Mr. Miles, who has discharged the duties of Consul at the latter place for the last six or seven years, has been assigned to duty at Valparaiso.

But as Mr. Miles is broken down in health, and is now

on his way to the United States, it. is thought that he will not accept the Consulship of Valparaiso.

Our difficulties with the government of Peru, growing out of the seizure of the Lizzie Thompson and other American vessels, has had the carnest consideration of the President and Secretary of State during the past week and no doubt stringent measures will be adopted to en force our claims against Peru.

It will be recollected that when our Minister at Peru demanded indemnity for the seizure and confiscation of these vessels, President Castilla agreed to refer the matte to Washington and to abide by the decision of our government. This government, after a full investigation of th Subject, decided that the claim presented by our Minister was perfectly just and proper, and directed him to de mand its immediate payment. But President Castilla per-emptorily refuses to pay, and therefore it becomes neces sary for our government to adopt very decided measure towards Peru, and I have every reason to believe that the next steamer will take out such instructions to Minister Clay and the commanding officer of the United States Pacific naval squadron as to satisfy President Castilla tha

To-day's Constitution contains a very elaborate article in reply to Senator Douglas' recent manifesto on squatter vereignty. Competent judges think it a complete demo ion of the "Little Giant." It is written by a high func tionary of the government.

Market Reports.

We occasionally hear complaints touching the accuracy of the market reports which are telegraphed from other cities to the agent of the associated Press. We aim to be strictly correct in our commercial reports, but that there are occasional errors in them we are well aware but these errors are only such as are inseparable from the very nature of the case. Sometimes there is a telegraphic error, sometimes a typographical one, and occasionally, porhaps, one caused by a slip of the pen. None of these methods of recording words and figures, as every one knows, is absolutely perfect. And yet, taken as a whote, we think we may safely challenge for our telegraphic market reports a rigid comparison with any other mater which ever was or ever will be transmitted over the wires.

Our agents in the several commercial cities are men o Our agents in the several commercial clies are men of intelligence and character, who were piaced in their present positions because it was believed that they were eminently qualified for them, and our sources of commercial information are of the very highest in the respective cities whence our markets come. The General Agent in this city of the New York Associated Press recently addressed a letter to Mr. Hayden, our agent in that cite, requesting extram information bouching the reports transmitted from that point, to which Jetter the following reply has been received:—

Quo Iron. - The iron interest in Southern Ohio i growing up rapidly and extensively. There are forty-five furnaces in that part of the country, and seventeen in Northern Kentucky; all have landings on the Ohio river to deliver for rail and river transportation. The yearly average produce of pig iron per furnace may be restimated at 2,500 tons, and the value of all the bron produced is set down at 34,650,000. There are 31,000 persons employed in these furnaces. Operatic and Dramatic Matters

Nearly all of the habitues of the Academy have ret town, and among the strangers now tarrying in the netropolis there are many enthusiastic admirers of the livine art and its highest form of expression—the Italia Opera. All these will muster en masse this evening, when the fall and winter season will be commenced with the "Poliuto"—the great success of last year. The director's compendious announcements, giving an outline of the sea-son, will be found in the appropriate place.

Madame Bishop's return to New York has been es-pecially gratifying to the public. Her first concert,

music hall of the Palace Garden, attracted on Saturday evening an audience of nearly three thousand persons, and among them were the best critics and ama teurs in the city. Madame Bishop is more buxom than we last saw her, and her voice seems to have gained in volume and sweetness. In every artistic requi site she is of that severely correct English school which one hears so seldom, and which is especially grateful in these latter days, when there is a good deal of musical charlatanism about. The sacred concert last night at-tracted a full and delighted audience. Mine. Bishop sung Schubert's "Ave Maria" and Handel's "Angels eve bright and fair" most admirably.

There will be two concerts by Madame Bishop, at the

Palace Garden Hall, on Tuesday and Wednesday evenings

Mile. Piecolomini is making a concert tour through the provincial towns of England. It is understood that she oes for the next season to St. Petersburg.

On the evening of Wednesday, the first day of th fair at Elizabethtown, New Jersey, a grand operatic con-cert will be given in that place, under the direction of Mr. G. F. Secchi di Casali, editor of the Ecod'Halia. The con cert will bring together a greater amount of artistic talen than is usually heard out of New York. The vocalists will be Mmc Gazzaniga, Stefani, Ardayani and Assoni. The conductors, Signori Muzio and Albites. The planis Mr. Sanderson. Mme. Gazzaniga will sing Signor Muzio' charming aria introduced in the "Poliuto," and the programme is altogether excellent. There will be a railway

rain for Newark and Jersey City after the concert. Ferri, the new baritone engaged by Strakosch, is said to be one of the finest artists in Italy.

The city theatres have been doing a fine business for the last three weeks. The Ravels literally pack Niblo's Garden every night. Miss Laura Keene has been playing two of Tom Taylor's comedies to crowded houses. provincial press, to some extent, seems to labor under the pression that Mrs. Bateman's tragedy, "Geraldine," has not been especially successful. The simple facts are, that the play-which is not of the light character usually selected for this season of the year-has been given eighteen consecutive nights to full houses, and the audiences were larger last week than during either of the two preceding. Mr. Bateman's tenantcy of the house expires on Wednesday next, otherwise the play might be continued for some time longer. The two Boweries, old and new, are both doing well. The competition between them is a fine thing for the audience, as each house puts forth its full strength.

The opening of the Winter Garden has been delayed by the illness of Miss Agnes Robertson. We are happy to learn that the is now convalescent, and that this really beauti use will be opened during the present week. The box office for the securing of places will be opened this morn The piece de resistance of the first night will be "Dot, or the Cricket on the Hearth," the distribution of which we have already given.

Mr. Wallack will commence his regular season next Monday. Mr. Brougham's new comedy, "The Ruling Passion"-principal parts by Messrs. Blake, Lester, Wa cot, Brougham and Mrs. Hoey-will be acted on the first night. The theatre will be repainted and decorate

THEATRES ELSEWHERE.—The Cincinnati papers speak very highly of Mrs. Charlotte V. James, who has just made her début in Verdi's "Rigoletto." Mrs James is an American by birth, and has been educated in Italy....Mrs. Bowers opened the Philadelphia Academy of Music on last Mor day, for a dramatic season, with a large and efficient stock company, which includes Mr. and Mrs. J. W. Wailack Miss Lucy Escott, Misses Pratesi and Galetti (danseuses) Mr. A. W. Fenno, and other popular artists. The play was a new piece in five acts, called "The Black Agate and written by Mrs. Bowers from Kingsley's novel, "Hy patia." The action of the play is supposed to transpire when Alexandria was at the height of its glory, and when the battle between Christianity and Paganism was being fought in the schools. The fine opportunity for the display of magnificent costumes and splended scenery is said to have been fully improved, but for this practical age. Mrs. Bowers played Hypatia, Mrs. Wallack Miriam, Miss Escott the gay Pelagia, and Mr. Wallack, Raphael. The tableaux and effects are said to have been very fine, and the piece was continued through the week. Mrs. Bowers' senson promises well. At Boston the coming sensation is Mrs. Bateman's play, "Geral which will be produced at the Howard Athenceum on next Monday evening, with Miss Heren and Mr. E. L. Davenport in the principal parts. Mr. Brougham has written a duologue for Mr. W. Warren and Mrs. Barrow, coiled "Old Friends with New Faces," to be given at the Meseum on Saturday evenings when there are no reguer dramatic performances, and on Wednesday afternoons for the delectation of people from the rural districts.....Don Jose Alcazar, proprietor of the Villanueva theatre, Havana, who has been for some time in this city, returns home by the Cabawba, having suc ceeded in engaging an opera company for his theatre. Mr. L. P. Barrett, the jeune premier of the Boston Muse um, has lately contracted matrimony with Miss Mary Ma yer, daughter of Mr. P. J. Mayer, of Boston. Howes & Cushing's United States Circus company are performing under a tent in Ireland, travelling through the country and compelled, for the want of tavern accommodations to encamp at every place where they show. A lette dated at Clonmel, August 22, from one of the proprietors

to a friend in this city, says:—

We have applied to the owners of the steamship Great Eastern to take us and one hundred horses to America on her first trip, and it is our intention to put a temporary ring on the upper deck, and give equestrian performances to the passengers in fair weather. The track of the ring will be made of India rubber matting, the same as is used in the London theatres when circus performances are given on the stage; and the gymnastic tackic, the light and clack rope fixings and the trapez apparatus, are to be attached to the rigging of the ship.

As the Great Eastern is likely to bring out same circle or to a friend in this city, says:-

As the Great Eastern is likely to bring out some eight of ten thousand passengers on her first trip, the circus wil stand a chance of drawing good "houses" on board every day of the passage. Nixon & Co., with the same troupthat made the great bit at Niblo's Garden and at the Bos ton theatre last winter, is now travelling in full force through Connecticut—the act against circuses notwithsignding-under the style and title of the "Mammoth show," being compelled to drop the "circus," in conse

ATTEMPT AT MURDER IN THE EIGHTH WARD.—About seven o'clock last evening, an aged colored man, named Samuel Phillips, was severely stabbed by his son-in-law, named Jackson, and from which injury his recovery is thought to be very doubtful. It seems that about half past six o'clock young Jackson called to see his mother at No. 74 Hamersley street, but she being out at the time, he demanded something to eat from Phillips. The old man got him some cold cabbage, &c., and while Jackson was eating his mother came in. It seems that soon after, they got into a dispute about family matters, when the old man got up and said he would leave the room till Jackson left. He went out into the yard, but had been there but a short time when Jackson came suddenly upon him, and drawing a kuife stabbed him four times—once in the neck, once in the arm, and twice in the left side, at the same time exclaiming "You son of a b—h, I will kill you." He then fled and succeeded in making good his escape. Several, hearing the cries of Mr. Phillips, came to his assistance, and he was aided to the Ninth ward station house, where Capt. Scabring had him at once conveyed to the New York Hrspital Several of the Ninth ward officers were immediately put on the look out for Jackson, but up to a late hour last night he had not been captured. Mr. Phillips is said to be a very quiet old man, and has never been known to fight with Jackson, always avoiding him. Jackson is said to have caused his mother much trouble of late, and she has several times forbade him the house.

The articles of association under which the American Express Company was organized, dated March 13, 1850 limited the association or partnership, "unless sooner dissolved by the unanimous consent of the directors," to the lat of January, 1860, but made no provision for its continuance. It will consequently expire, by its own limitation on that day, like any other copartnership, unless the consent of each and every shareholder, some 400 in number, be obtained to extend the time.

RESCUED FROM DROWNING .- About four o'clock yester day afternoon a small sail boat, containing three persons viz.: Mr. McCormick, wife and child, when between Go vernor's and Bedioe's islands was accidentally capsized. Capt. Johnson, of the Staten Island ferry boat Hunchback, noticing the disaster, immediately stopped his boat, iowwere brought to the city and kindly taken care of by the proprietor of the Eastern Hotel, Whitehall street.

The Sunday City Travel Question—Letter from Mayor Tiemann to a Philadelphian.

Mayor's Object, New York, August 20, 1859.

To Wa B Thomas, Esq.—Dear Sir.—Yours of the 24 inst. came duly to hand. I trust, however, you will pardon my neglect in not answering the same before this, the pressure of official business being my excuse for so long delay in giving you my opinion in relation to the questions abmitted to me therein.

You state that the propriety of Sunday travel by city passenger railroad cars in your city has become a subject of grave consideration; many of your intelligent, religious and benevolent men entertaining different views on the subject, and that many believe the practice of running such cars on Sundays would ultimately superinduce a total abandonment of that day of rest, and that the congregations of large numbers of persons at the termini of the reads would be provocative of dissipation, disorder and breach of the peace, and wish my opinion as to whether the running of cars in this city on Sundays has been productive of those consequences; and also whether religious men oppose the practice of travel on city railroads on that day

the running of cars in this city on Sundays has been productive of these consequences; and also whether religious men oppose the practice of travel on city railroads on that day

This city has had some practical experience as to the effect of Sunday travel in rail cars, and from the observations I have made and the information I have been enabled to gather from others, I am satisfied that no such deplorable effects as you represent many of your best citizens fear from such travel in your city, have occurred here. I know of no instance of any riot or other disorder having occurred in consequence of the running of such cars on Sunday, nor of any great gathering of disorderly or other persons at the several termini of our railroads on that day. The practice has, on the contrary, been found of great convenience to all classes of our citizens, and the cars, although used on the day alludel to chiefly by a different class from those who travel in them on week days, still many of our best citizens, intelligent and religious, avail themselves of the public accommodation afforded by the cars on Sunday, in going to and from the several churches in our city, and in other acts which the most strictly religious would admit as compatible with the observance of that holy day.

There are some six lines of railroads in our city, all of them running from the lower to the upper part of it, and two of them extending their trips as far as Harlem—a distance of eight miles from the tower termin—and although they are filled with passengers more than on other days, no disturbance has ever, to my knowledge, occurred in them or in consequence of their running on that day.

It is now but a few years since the facilities for travel by rail cars on Sunday have been afforded to our citizens. Previous to 1851 but one mode of public conveyance was available for any passengers from the lower to the upper part of the city, viz.: the cars of the Harlem Railroad Company; and before the construction of that road, in 1832, there were no means for ou

In this respect I be heve that all classes of our community acquiesce. With great respect, I remain yours, &c.

TOBACCO, of the BEST QUALITY is selected, neatly wrapped in TIN FOIL, and PATENT PRESSED.
The great advantage of this over other brands consist in the
size of the packages, rendering it more convenient to carry in
the pocket, and by being PRESSED SOLID it keeps MOIST
and FRESH, retains its PULL, RICH FLAVOR, and improves
in quality as it is used; while in other brands, as soon as the
package is opened the quality rapidly DETERIORATES—the
tobacco growing dry—and liftering the pocket, to the great annovance of the consumer. The dressing which the PATENT
TOBACCO undergoes in the process of manufacture, frees it
trom all grid or impurities so objectionable in the use of plug
tobacco. Chewers will do well to give the patent pressed a trial
and judge for themselves. from all given the panels. The tobacco. Chewers will do well to give the panels of the tobacco. Chewers will do well to give the panels of the
